## **Integration Technologies Group, Inc. Announces the Promotion of Burl Williams and Markus Darby**

Falls Church, VA – January 29, 2014 - Integration Technologies Group, Inc. (ITG), an IT products and services company providing Best Practices consulting, IT managed services, accessibility, video-teleconferencing and enterprise solutions, has announced the promotion of Burl Williams and Markus Darby in the positions of President and Executive Vice-President and GM, respectively.

Current ITG shareholders Michael P. Angelakis and Giovanni Canobbio, will remain as principals and Board of Directors members, joined by Williams, Darby and Ioanna Angelakis. These actions are part of a business and management continuity plan designed to ensure the uninterrupted growth and success the company has been enjoying for the past thirty years.

“Our new management team brings energy, market knowledge and a wide array of management skills, needed in the challenging but opportune environment of our industry”, said Michael P. Angelakis, Integration Technologies Group Inc. Chairman and CEO.

### **Burl Williams Bio**

Most recently, Burl held the position of VP Business Development for ITG, In this capacity, Burl was responsible for Public Sector sales, proposal development, contracts, program management and vendor partnerships. Burl captured millions in contract wins over a 5 year period at ITG, including contracts with the Air Force, Army, Marine Corps, NAVY, DCMA, DODEA Schools, and GSA.

Burl entered the Government reseller industry in 1986 at GTSI. Over the past 28 years Burl has held executive management positions at CDWG, Microwarehouse, Best Buy Government LLC. Burl has been a key player in over \$15 billion of contract awards, resulting in the placement of over 750,000 computer systems throughout the government, both domestically and abroad. These include products from leading manufacturers such as Microsoft, Hewlett Packard, Dell, Compaq, and IBM.

### **Markus Darby Bio**

Markus has an accomplished background in sales and operational management, process improvement methodologies, consulting operations and auditing services. Markus was the VP of Quality Standards and Performance for Integration Technologies Group (ITG) and since 2010 his charter included the marketing,

sales, operational management and technical support to ensure the successful completion of projects related to ISO 9001, ISO 20000, ISO 27001, ISO 13485, and CMMI for Development and Services. During the last three years Markus' team has successfully completed the implementation of over 85 unique projects within the manufacturing and services sectors.

Prior to ITG Markus spent a cumulative total of 9 years working for a leading ISO registrar. During his time at the ISO registrar Markus worked in a variety of management roles including training, course development, customer service planning, logistics and sales management. Markus helped to support hundreds of customers across different verticals achieve their business improvement initiatives. In addition to performance improvement related work experience Markus has spent time in environmental compliance auditing, international procurement, and IT related partner program management.
